

TRADER TACTICS

RAISE THE LINE

Phase Two – Web Dev

New Website Additions

1) New Page Called “Free Resources”

Sub Page # 1: Videos

Sub Page # 2: Video PDFs

Sub Page # 3: Articles (Formerly BLOG)

New Website Additions

Sub Page # 1: Videos

I will be recording videos mainly for YouTube, but I also want to upload them on my website.

I would prefer them done in categories like I will have on YouTube. My categories so far will be

- 1) Question & Answer for Traders
- 2) Real Money Trade Results
- 3) Trading Case Studies
- 4) I will have more in the future but that is all for now

New Website Additions

Sub Page # 2: Video PDFs

For each Video, I have a Powerpoint PDF that I will make available on this page for people to download. I would also like it in the same categories as the Videos, preferably sortable by category.

I would like it to look something like this:

Category Title	Video Name	PDF download
1) Question & Answers for Traders	Biggest Aha Moments	
2) Question & Answers for Traders	Biggest Breakthroughs	
3) Etc....		
<hr/>		
4) Real Money Trade Results	2020	
5) Real Money Trade Results	2021	
6) Etc....		

New Website Additions

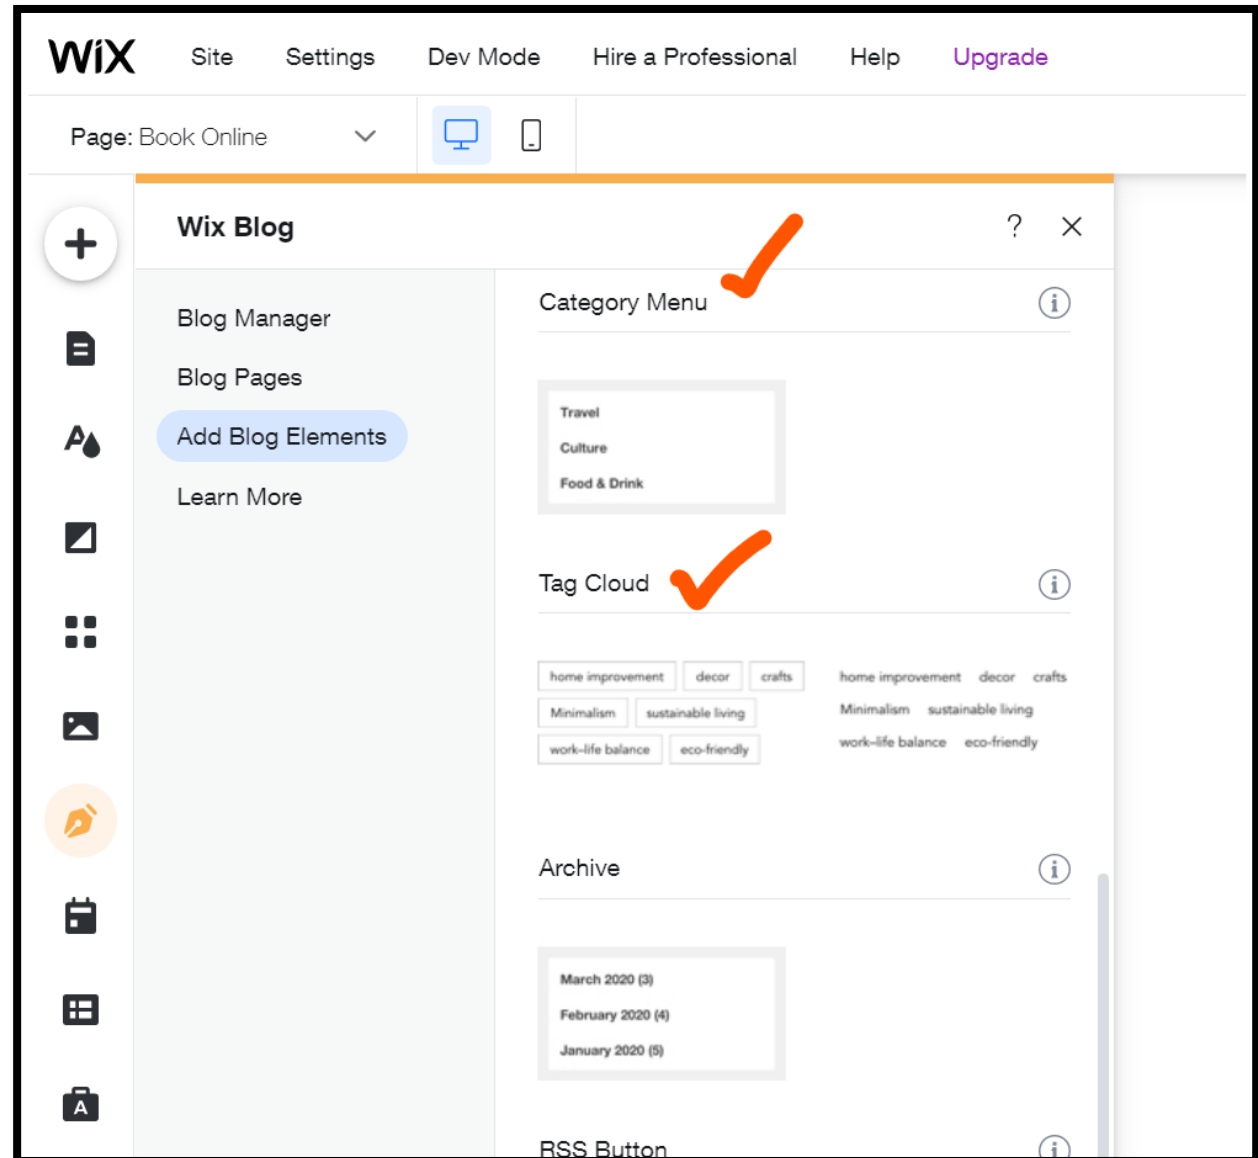

Sub Page # 3: Articles

This should be a simple “Blog” type of post. I have a BLOG page already; we can use that to start.

Something that has tags or a way to categorize, such as to the right. I prefer the 1st one, category menu. On the right.

I do not want to use the term “BLOG”, so please use “Articles”

New Website Additions

I will need some time to upload them, until I have at least 5 of each before I go live with the page. So, Please keep it hidden for now.
